

Venice LED

The Venice Wall Appliqué is outfitted with an attractive low-profile half-shade permitting secure close-to-wall placement; an often desirable feature of light fixtures on board marine craft. Its construction is of cast polished stainless steel guaranteeing years of service in the marine environment. Its warm white omni-directional LED bulb replicates the color, intensity, and hue of a traditional incandescent bulb without the IR or UV heat, while consuming just 15% of the power! The Venice comes standard with a built in on/off switch for convenient control at the fixture.

An excellent choice for:

- Wall Lights
- Staterooms
- Main Salons
- Living Spaces

Venice LED

Features

- Compact low profile design
- Maintenance-free stainless steel construction
- Off-white half shade
- Constant current driver topology
- High output warm white SMD LED bulb
- On/off switch

Benefits

- Substantial power savings
- No UV or radiated heat
- No bulb changes
